25X1A ~~Comment.~~ According to previous information, the unit is the VPD Leipzig II. In contrast to the organization stated in the present report, it is believed that the VPD in Leipzig, like most of the other VPDs, has three infantry Kommandos and an armored seventh Sonderabteilung. ~~It is also doubted~~ that the infantry Kommando is equipped with heavy mortars. It is believed that only the mortar Sonderabteilung is equipped with 120-mm mortars.

25X1A ~~Comment.~~ The report confirms previous information on the location, strength and officers of the VPD in Weissenfels. See
